Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: prior art does not in combination with the other limitations of the independent claims the method of making and the pilot fuel nozzle apparatus comprising two flanges, a nozzle tip containing a plurality of injection holes, a constant inner diameter, and a wall thickness having two distinct values. Patentable weight was given to the limitation "gas turbine" in the preamble, because of the very specific geometry and highly turbulent, noisy, and vibrational environment that such a gas turbine imposes on the claimed pilot fuel nozzle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Place 3447757, Martling 20040177615, Hirasaki 20040237531, Wiebe 20030217556 (note paragraph 21) and Wiebe 20040045295, Mick 4685139.
